"I am on a quest to find a role that not only enables me to pitch my innovative ideas but also encourages continuous learning from experienced mentors, propelling me towards a successful career. My goal is to equip myself with team responsibilities and hone my leadership skills, leveraging the collective wisdom of others. Working closely with diverse teams will foster better communication skills and adaptability, as I absorb valuable insights from my peers and seniors alike."

Project history

Enhancing Women Safety Device |

- Spearheaded a cross-functional team to address critical issues related to women's safety, effectively identifying and analyzing challenges while providing innovative solutions to ensure a safer environment.
- Actively engaged in team-building activities to foster strong working relationships, promoting effective collaboration and communication among team members.

Fake news detection

Led the development of a groundbreaking project focused on using Machine Learning techniques to detect and combat fake news, contributing to building a more informed and reliable digital ecosystem.
